**GENERAL EDUCATIONAL VALUE OF MUSIC AND MOVEMENT**

Beyond dance, music and movement have a strong bond. They complement each other and together have many benefits. Your body's movements can be calmed down or stimulated to synchronize with music. Coordinating rhythmic movements with beat may improve fluidity, timing, coordination and even communication between your right and left body.

At Makin' Music we value the connection between music and movement. Many of our songs incorporate a variety of rhythmic moves to maximize the fun and educational value of our program.

### MAKIN' MUSIC FOR FAMILIES DVD

This DVD is a jam packed educational experience featuring singing, dancing, stomping, and more. It includes two 30-minute classes led by some of our most dynamic and engaging teachers showing how to utilize the eggs, sticks, gathering drums, and more.

This is a great teacher training tool; showing how the curriculum should be used in a classroom setting. It's also great for in-home use, either as a home teaching tool or simply for entertainment.
